Mini-UWC 2020

ASAP--ALL STUDENTS FOR
ACTION PROGRAM

Who are we?

Mini-UWC Summer Program is a UWC Short Course organized by All Students for Action Program. During the program, campers will experience an authentic UWC life. A highlight is that campers will initiate social service projects to showcase at the end of Mini-UWC. When campers return to their own communities, they bring back those projects and spread positive changes. After completion of Mini-UWC, campers will be considered alumni of the UWC movement.

Our theme "Motif for Movement"

Inspired by the UWC movement, we hope the theme reflects our aspiration to empower teenagers to bring positive changes to their communities. We believe that our campers, who know how to speak up and take action, who know the importance of working together as a strong and powerful force, have the potential to become "motifs" for change.

Course Intro

THEME ACTIVITY

Game-based activities that aim to encourage campers to experience, learn, and think more about the theme of the day in a fun and engaging way.

SKILL BUILDING SESSIONS

Workshops in which counselors demonstrate various skills needed to effectively develop projects. Campers will collaborate in project groups and practice these skills within the sessions.

FIELD TRIP

A trip to a secret location in Changshu and Suzhou where campers will be divided into teams and complete various challenges while having a fun time outdoors. Campers will improve teamwork but also enjoy the local culture.

UWC EXPERIENCE

Campers will be experiencing first-hand traditional activities UWC students participate in. These are activities closely related to UWC values and culture. Counselors from different UWCs will bring different special activities to share with campers.
