Summer Program

 UWC SHORT COURSES

Introduction to Mini-UWC

Mini-UWC is a 9-day UWC short course held by the student organization ASAP (All Students for Action Program) in UWC Changshu China. Campers will enjoy an unforgettable UWC experience during the program. They are encouraged to initiate social service program, design and implement projects, which will be presented at the end of Mini-UWC. After the program, campers go back to their communities and continue with the project, spreading the social change and UWC ideals with an even wider audience.

“Ripple” is the theme of Mini-UWC 2018. We are the ripples in Mini-UWC Program—every day we make small changes, including helping a person, contributing our power to create a sustainable community, or coming up with an idea to make the world a better place. When these ideas start to accumulate, they will spread warmth towards others. When you are constantly exchanging your ideas with others, you will bring even greater and more substantial changes to the world.
